

Cleanroom Technology Network Group Invitation

9th December 2010, 10:30am – 15:30pm - Hudson Bay Hotel, Athlone

Purpose of the Network

This idea behind the network is to create an informal forum where people working within cleanroom environments from the Pharmaceutical, Medical Device and Electronic industries as well as Hospital personnel, can come together to discuss topics and areas of similar interest, share experiences and generally learn from each other to create a support network that will benefit all, in these challenging times.

Information Sharing ● Problem Solving ● Learning Opportunities

Topics for discussion:

- **Bioburden and Anaerobic testing** - Michael Collins, Isotron

Round Table Discussion

- **Pest Control within a Cleanroom Facility** - Declan Murphy, Quality Pest Control

Round Table Discussion

If you would like to join us
